## SUMMARY

---

Software Engineer with **15 years of experience** in backend software development, including testing and deployment. Proven track record in managing complex business-logic heavy projects, launching products from start to finish, and **integrating third-party services**. Skilled in **API development**, database management, and **cloud services deployment**. Committed to delivering high-quality software at high velocity.

## SKILLS

---

**Technology:** PHP, Drupal, Symfony, JavaScript, React, Node.js, Typescript

**Frontend:** HTML5, CSS3, SCSS, LESS, JQuery, RESTful APIs

**Database:** MySQL, Apache Solr, NoSQL, Algolia

**Testing:** Behat, Nightwatch.js

**Tools:** Github actions, Gitlab CI/CD, Postman, Docker (DDEV, Lando)

**Servers:** Acquia cloud, Rackspace cloud, Azure

## KEY PROJECTS

---

- **Consolidating DX across 90+ diverse brands for an enterprise-level retail megalith with ACSF**
  - **Tech Stack:** PHP, Drupal, Symfony, REST API, JavaScript, React, mysql
  - **Drupal 8** based project for various consumer and commercial brands for the Middle East based Multinational Company.
  - Manage Integrations with an **E-Commerce** system and is built using a progressively **decoupled** approach.
  - Utilized **React** for Front-End framework and site search with **Algolia** and Acquia Site Factory to spin-up and manage multiple sites
  - Decoupled approach for the part of the sites which were heavily dependent on APIs.
- **Artiplaq | Web: PHP, MySQL, Drupal, Drupal commerce, JavaScript, HTML, CSS**
  - Main website for mounting prints for customers.
  - Used **Drupal commerce** to dynamically create products based on size and type of mounts.
  - Developed custom **Drupal theme** with **HTML, CSS, JavaScript** for the user-facing site.

## EDUCATION

---

**Saurashtra University** ➡ Rajkot, Gujarat, IN ➡ Jun 2006 - Apr 2010

Bachelor of Engineering in Information Technology

## CERTIFICATIONS

---

- **Algolia Search Engineering Basics (ASEB) Certification** - Apr 2024
- **Foundational Data Analysis and Visualisation Bootcamp**
- **Acquia Certified Drupal Developer** - Mar 2016

## OPEN-SOURCE CONTRIBUTIONS

---

- Contributed back to various projects on Drupal.org - [drupal.org/u/miteshmap](https://drupal.org/u/miteshmap)
- Contributed to some open source projects on Github.

## PROFESSIONAL EXPERIENCE

---

Software Engineer, DEPT® ➡ Remote ➡ Mar 2022 - Present

---

- Architected and implemented backend solutions using **PHP, Drupal, Symfony Apache Solr and JavaScript**.
  - Developed and tested **REST APIs** using **React** and **Node.js**.
  - Managed **CI/CD pipelines** with **Gitlab** integration to deploy projects to **Azure** containers.
  - Collaborated with cross-functional teams to deliver complex projects on time and within budget.
- 

Staff Engineer, Axelerant ➡ Remote ➡ Dec 2015 - Mar 2022

---

- Led a team in developing and maintaining backend systems, focusing on API integrations and database management.
  - Developed Symfony middleware application to work with Magento's **REST APIs** for improved performance and reliability.
  - **Managed long-term projects**, ensuring high code quality and maintainability.
  - Serving efficient solutions to ensure client satisfaction with the work and scored **95% NPS** as a team. Collaborating with agents and peers during entries SDLC process as part of ensuring timely delivery of release cycles
  - Developed **CI/CD pipelines** with **Acquia pipelines** integration for automated testing and deployment.
  - Integrated various third-party services, managing risks and ensuring seamless operation.
  - Designed and implemented web application based on **PHP, Drupal, JavaScript, React, Algolia, Node.js, MySQL, Apache Solr**
- 

Software Engineer, Coworks ➡ Remote ➡ Jul 2014 - Nov 2015

---

- Participated in the **requirement gathering** process and provided solutions for various Drupal-based functionalities.
  - Developed Drupal websites as a **full-stack developer**, with **REST API Integration** based on Drupal.
  - Designed and implemented web applications based on **PHP, Drupal, JavaScript, MySQL, Apache Solr**.
- 

Web developer, Freelancer ➡ Surat, IN ➡ Jun 2012 - Jul 2014

---

- Actively developed and designed software solutions, focusing on high-quality software design and architecture.
  - Assisted in designing and requirement gathering for websites, guiding clients and management through the entire SDLC process.
  - Designed and implemented web applications based on **JavaScript, PHP, MySQL, and Drupal**.
- 

Software Engineer, Techpulse Solutions ➡ Surat, IN ➡ Jun 2010 - Jun 2012

---

- Worked on **PHP** web applications based on **WordPress, CodeIgniter, and Drupal**.
- Developed and maintained backend systems and integrated various APIs.
